

Dear Friends and Colleagues,

We are delighted to invite you to the European Cardio-Oncology Symposium (ECOS) 2019, which will be held 17-19 October 2019 at the Hotel Barcelona Center, Barcelona, Spain.

ECOS 2019 is an innovative 2-day continuing medical education (CME) event, with optional pre- and post-conference workshops, designed to meet the educational needs of the full multidisciplinary cardio-oncology team: cardiologists, clinical oncologists, radiation oncologists, specialist nurses, pharmacists, and other professionals involved in managing patients with cancer.

The ECOS 2019 programme has been developed by a Steering Committee of international experts in cardio-oncology. The educational sessions employ a range of interactive formats that focus on emerging topics and discuss the latest data in the context of the day-to-day challenges we face with our patients in the clinic:

- Practical workshop on the use of cardiac ultrasound and global longitudinal strain in the management of patients with cancer
- Multidisciplinary team cases highlighting common cardio-oncology issues
- Cardiac intervention in the cancer patient
- Cardiac complications of immunotherapy and targeted therapies
- Role of biomarkers in cardio-oncology
- Setting up cardio-oncology services
- Economic viability of a strain-guided approach

In addition to providing a forum to network with like-minded healthcare professionals, this unique ECOS 2019 meeting will provide you with new ideas for your clinical work, a greater appreciation of collaborative approaches in cardio-oncology, and fruitful discussions with your colleagues through the sharing of clinical experiences in this fast-moving therapeutic area.

We are sure you will find this meeting to be an engaging, informative and rewarding environment in which you can develop both your knowledge of managing patients with cancer and exchange ideas with your peers.

We look forward to meeting and talking with you in Barcelona.

With kind regards,

**Jeroen Bax**  
ECOS 2019 Co-Chair

**Giuseppe Curigliano**  
ECOS 2019 Co-Chair

**Juan Carlos Plana**  
ECOS 2019 Co-Chair
